

BOAT TRIPS ON THE BOW RIVER

BANFF'S GRAND SCENIC WATERWAY

T HE Bow River at the Bridge is too swift for boating, but beginning at the Boathouse, just a short distance above the bridge, a smooth, wide, deep channel extends ten miles, forming an ideal stretch of river for—

BOATING AND CANOEING

and providing an easy and pleasant route to view some of Banff's best mountain scenery, Motor launches provide a passenger service as far as the river is navigable. The Echo river joins the Bow just half a mile above the bridge and for two miles is a perfect stream for canoeing; clear water, easy current, and nice shady banks. Willow Creek joins the Echo River just a mile and a half from the Bow River bridge and leads into Vermilion Lakes. These three lakes lying at the foot of the Vermilion Mountains form one of Banff's beauty spots. A canoe trip up the Echo River and through the Vermilion Lakes is no doubt one of the most delightful trips that can be taken around Banff and is not at all expensive.

THE Motor Launch Trip On Bow River

is one of the best of the Banff trips that every visitor should take. The time required is only an hour and a half, and the price is within the reach of all.

The trip is an ever-changing panorama of beautiful views, mountain and river scenery combined. One of our visitors has appropriately described it as

"Ninety Pictures in Ninety Minutes."

The trip affords some splendid views of Mount Edith and the snow capped peaks of the Bow Range, in fact all the surrounding mountains appear to better advantage when viewed from the river than from any other viewpoint.

The launches run four trips every day as per time table on Page Six of this booklet.

Launches stop ten minutes at Rainbow landing, every day trip, and passengers may stop over and return by later trip.

Good fishing near the landing and a fine place for picnicing.

Trail to Mr. Assiniboine starts from landing.

THE BOATING AND
CANOEING
ON THE
BOW RIVER, ECHO RIVER
AND
VERMILLION LAKES

is thoroughly enjoyed by many thousands of our visitors every season.

The miles of pleasant shady waterways winding through the valley west of Banff are not only perfect for boating and canoeing, but from them can be seen some of the most magnificent views of the surrounding mountain scenery, views that can be seen in no other way. Visitors with cameras, Pleasure Parties, Picnic Parties and Fishing Parties will all find special attractions here, and visitors who are fond of boating will find first-class facilities for their enjoyment.

Trout Fishing at Banff

Go fishing by boat, canoe or motor boat and you will reach the best places, get the best results, and enjoy every minute of your outing.

It will be to your advantage to see us before going fishing anywhere in this locality.

We have made a specialty of handling fishing parties here for over thirty years. Our experience is at your service. For those who are here without their fishing tackle, we can provide rods, reels, lines, landing nets, in fact everything required for a successful fishing trip.

We can get you some fishing, even if you have only a couple of hours to spare, but for those who would like to enjoy a perfect day's outing, we can arrange a fishing trip that will combine good fishing and beautiful scenery with the facilities for enjoying the same in ease and comfort.

Regulations

Governing Trout Fishing

At Banff

are to the following effect:

Open Season from July 1st to October 31st.

The fishing is free to all, no license required.

No fishing allowed except with hook and line.

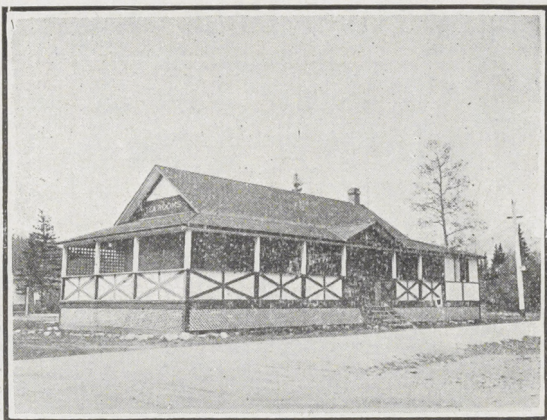

No one allowed to catch fish to sell or barter.

No one allowed to catch more than fifteen fish in one day.

Any fish caught that are less than seven inches long must be returned to the water without unnecessary injury.

And most important of all, be careful about fire. A carelessly thrown match or cigar stub may cause a disastrous fire and the guilty party will be liable to a heavy penalty.
